AO Let's Grow!

Welcome to AO Globe Life

A personal note from Alex Paz and the Paz Team

Alex Paz

Life Insurance Agent
Paz Team

Congratulations and welcome to AO Globe Life and the Paz Team.

I have spent the last 23.5 years building my career with American Income Life, serving clients, developing leaders, and learning what it takes to build a lasting business in this industry. I have also had the privilege of running my own agency, building teams, and helping people step into opportunities that changed their personal and professional lives.

Most recently, my agency merged with AO. I see this as a powerful next chapter. AO brings proven systems, expanded markets, world-class leadership, and a stronger platform for agents who are serious about growth. My mission has not changed: I am still committed to serving clients, developing leaders, recruiting builders, and helping people build meaningful careers that create lasting impact.

Your responsibility now is to move with urgency. The licensing process requires focus, consistency, and communication. AO provides the structure, the tools, and the support. Your part is to follow the process, ask for help early, and complete each step with professionalism.

I am excited to welcome you into this opportunity. If you bring discipline, coachability, and daily effort, this can become the start of something significant.

Best regards,

Alex Paz

What this means for you

This is not just a new name. It is a stronger platform designed to help you grow faster, serve clients, recruit builders, and build the business you have envisioned. The expectation is simple: plug into AO's systems, follow the process, and communicate daily.

Your First 48 Hours

Complete these setup items immediately so nothing delays your licensing path.

01

Complete or confirm your REMIC HLLQP course enrollment using the current AO-provided link.

02

Begin studying today

Complete at least one focused 90-minute study session on day one.

03

Verify AO Planet account

Look for the AO Planet verification email and activate your account.

04

Join AO Nation Slack

Accept your Slack invitation and monitor the correct channels for announcements.

05

Complete Agent Onboarding Kit

Set aside 20-25 minutes to complete the required onboarding paperwork and appointment documents.

06

Save current meeting links

Add the AO Zoom office, support sessions, Business Builders Forum, and agency meetings to your calendar.

Use placeholders for live details: meeting links, passcodes, breakout rooms, Slack channels, and calendar dates should always come from the most current AO onboarding email.

The Licensing Roadmap

Certification first. Provincial exams next. Background check and application after that.

1

Certification

Complete the approved HLLQP pre-licensing course and obtain the required course completion/certification.

2

Provincial exams

After certification, book and pass the four provincial LLQP exams required in your province.

3

Background check

Submit the provincial criminal background check or security clearance where required.

4

Licensing application

Complete the licensing application, required forms, Errors and Omissions requirements where applicable, and council fee payment.

5

Training launch

Once licensing is moving properly, plug into AO training, builder development, meetings, and field-readiness expectations.

Accountability standard: delays in certification, exam booking, background check, or application delay your ability to earn, serve clients, recruit builders, and build your business.

Canadian Licensing Steps and Costs

Multi-province overview based on AO-provided Canadian licensing guidance.

Approved pre-licensing course listed in the AO guide: **REMIC HLLQP course: \$189**. Costs and process rules may change by council, testing centre, and province.

Province	Provincial exams	Backcheck	License / application	Notes

NL	\$35 or \$84 each	N/A in guide	\$125	Application after exams

Common Canadian sequence: complete HLLQP certification, pass four provincial exams, submit background check where required, finalize licensing application and fee, then move into AO launch training so you can serve clients and build your business.

Urgency, Consistency, Communication

AO gives you the system. Your progress depends on your daily execution.

Start immediately

Begin the course the day you enroll. Waiting creates friction and delays the entire licensing path.

Complete the first 25%

Map your first 10 hours quickly. Once momentum starts, completion becomes much easier.

Book intelligently

Move toward provincial exam booking as soon as certification allows so the material is still fresh.

Use support

Attend support sessions, ask questions early, and communicate before a small issue becomes a delay.

Remember: every delay in certification delays your provincial exams. Every delay in provincial exams delays your license. Every delay in licensing delays your ability to earn, serve clients, recruit builders, and build your business. The process works when you work the process.
